**Subject:** RE: SitRep input regarding Hurricane Harvey Recovery Efforts - September 14, 2017

The following information is provided to update the SitRep regarding Hurricane Harvey recovery efforts:

- FEMA informed EPA Region 6 that the pending EPA Recovery Mission Assignment was on hold.
- Region 6 participated in a HQ call with other Regions on September 14, 2017 for an update on Recovery. The R6 Mission Assignment (MA) is a model for Irma. HQ is working to determine what is holding up the MA.
- HQ EPA continues to lead the RSF conference calls and plans to transition this RSF lead function to the Regions in a couple of weeks once the JFO is staffed.
- A HQ briefing with high level EPA political officials on Recovery 101 is planned for Monday at noon.
- HQ is soliciting input from the Regions on resource needs such as technical assistance and training. HQ plans to develop a contract to support the Regions.
- The HQ/Region update calls will continue every week for at least the next 6 weeks.
- EPA Region 6 participated in the RSF #4 Housing weekly call on Wednesday, September 13, 2017.

Next update expected September 15, 2017.

Please let me know if you have questions.

Thanks.

Patty
